

Results CRM Business Suite— Designed for Today's Business

**Boost efficiency and stay on top of opportunities
and deliverables using an integrated CRM & business
management solution**

Your Data Hub

**Results serves as your
data hub—allowing you
to access all relevant
information from a single
access point.**

Improving efficiency and accelerating growth through retaining existing clients and attracting new ones are always on top of a business owner's to-do list. The award-winning Results CRM Business Suite was designed to address these needs by offering an integrated CRM (customer relationship management) solution.

Results moves beyond a simple repository for contact information—offering visibility across your business. With a complete view of all relevant data, you can stay in front of tasks, streamline workflow, and always remain current on new opportunities and deliverables.

Results CRM Business Suite is our comprehensive business management solution that enables access to data across business functions, including sales and marketing, service delivery, project management, timesheets, time-billing, invoicing, order tracking, payment history, and more. With current data at your fingertips, you are better equipped to make sound business decisions, improve efficiency, and enhance communication internally and with your clients and prospects.

Integrated Business Management

*Results combines
CRM and business
management to provide
you with one integrated
system to manage and
grow your business.*

Why Your Business Needs Results CRM Business Suite

Running an organization at peak productivity requires technology that can help better manage operations—technology like Results. Consider the value a centralized CRM and business management solution can offer:

- **Consolidates all Data**—so you can make informed decisions based on current information.
- **Organizes Firm-wide Communications**—offering an accurate audit trail and all-inclusive view of activity.
- **Enhances Client Service**—with data at your fingertips, you are better equipped to quickly answer customer questions, solve issues, and move business forward efficiently.
- **Supports Business Growth**—leverage data to gain insight into new business opportunities and enhance existing customer relationships.

Expanding the Power of Results via Smart Integration

Results seamlessly integrates with applications that you use every day—products that are already familiar to you. Consider the immense value that bi-directional integration among these systems offers:

- **QuickBooks®**—Quickly synchronize customer, vendor, employee, item, estimate, sales order, purchase order, invoice, and payment data, and then view data regardless of what system data is entered into.
- **Outlook®**—Easily import emails and their attachments in original format and sync contacts and appointments.
- **Constant Contact®**—Create lists and upload to Constant Contact, view email campaign reports and analytics, and open and update contacts from reports with efficiency. Easily view contact actions (e.g. opt outs or forwards) in response to an email campaign.
- **SmartVault®**—Scan, upload, and attach documents to any Results record using this leading cloud-based document management solution, and access documents, emails, and notes within either application. Unique plug-ins for QuickBooks and Results expand integration offering a revolutionary 3-in-1 solution.
- **SharePoint®**—Instantly access your SharePoint site and attach SharePoint documents to contacts, sales opportunities, and projects.

Results CRM is proudly 100% designed, developed, and supported in the United States.

“Your support team is really amazing. We enjoy working with you and the way your team responds so quickly. Thank you for all your help!”

– **Bonnie J. Weber**
ENRECO, Inc.

“As a business owner, I’m in the driver’s seat. I can monitor all of our business activities.”

– **Greg Buchner**
CleanOffice

“With Results, our sales, customer service, and shipping departments all have a complete picture of the business, so we can instantly respond to calls and requests.”

– **Dr. Krish**
Ergo Systems Inc.
