

Manage Your Business Anytime, Anywhere

Cloud-based solutions give you the choice to work in the office or on-the-go

The complete Results CRM (customer relationship management) product family can be delivered as an in-the-cloud solution through our web-based product and portal, or via a hosted virtual desktop. This allows you and your staff to stay connected whether working from home, in the field, or another location. Regardless of where you are, our advanced in-the-cloud solutions deliver a 360-degree view of your entire operation.

24/7 Access

Working in the cloud enables you to enjoy the powerful features of Results CRM at anytime and from anywhere you have an Internet connection.

"Results CRM in-the-cloud has removed the dependency on an individual team member's availability. No matter where we are, anyone on our team has the information they need to follow up with our hot prospects, ensuring we do not miss a sales opportunity."

– Peggy Spears
Kontor

Our on-premise web-based model is ideal for companies that enjoy the benefits of desktop software, but that also require the ability to access data remotely when needed. To support this, we offer the Results for the Web (R4W) product and the Results Time Management Portal as add-ons to the on-premise version of the software. This hybrid model opens the door for 24/7 access to your mission-critical data.

Results for the Web (R4W) | Portals

The option to run Results CRM Business Suite or the web-based version, R4W, offers users the flexibility of working in the office or remotely.

The Value of Our In-the-cloud Solutions

- Work when and where it's convenient for you.
- Keep operations up and running with simply an Internet connection.
- Reduce hardware and IT costs.
- Collaborate with staff anytime, anywhere with the virtual office model.
- Manage remote staff with the Time Management portal.
- Enjoy a month-to-month subscription.
- Ensure data security and scheduled back-ups.

Results In-the-cloud... Ensuring the Best Solution for You

To provide you with the best in-the-cloud hosted options, we have partnered with two award-winning hosting companies—Right Networks and InsynQ.

Both Right Networks and InsynQ are Intuit-certified hosting organizations. Through either, you will enjoy access to QuickBooks® in a hosted environment, as well as the powerful bi-directional integration with Results CRM. Additionally, both hosting partners offer Results as a month-to-month subscription. That means you can avoid any up-front software costs.
