

## **Powerful. Real. Results.**

**Partner with Results Software to offer your clients an award-winning integrated CRM solution that will positively impact their bottom line—and yours**

As their trusted advisor, your business clients look to you for guidance on growing their organization and securing a successful future. For some firms, this is restricted to review and guidance of the client's financial data. But for others, it also means advising clients on the right technology solutions—like Results CRM Business Suite (customer relationship management).

For a business to grow, it requires ongoing effort to enhance relationships, measure performance, and reduce operational costs. Results is the ideal solution to help your clients do all of this and more—regardless of their industry or type of business. Whether your client needs to manage individual departments or the entire organization, Results delivers a 360-degree view of the total operation—with access to real-time, accurate data that support sound, informed decisions. Results was designed with the small business owner in mind, providing a flexible approach to business information management and process automation for sales and marketing, service delivery, project management, timesheets, time-billing, invoicing, order tracking, payment history, and more.

**Results positions your clients for Powerful, Real Results!**

## **Only the Best for Your Clients— Results is a Certified QuickBooks® Gold Developer**

Recommend only the best applications to your clients! Results has earned Intuit's distinct seal of approval by earning certification as a QuickBooks Gold Developer. This means that our software has been independently tested and certified to seamlessly synchronize customer, vendor, employee, timesheet, estimates, sales order, purchase order, invoice, payment, and inventory data with QuickBooks. The system also provides full visibility into the history and financial status of each customer, including transaction-level sales orders, invoices, and associated payments—regardless of whether the data was entered in Results or QuickBooks.

**Results CRM Business Suite integrates with leading applications to further improve efficiency**, including QuickBooks, Outlook®, Constant Contact®, SmartVault®, and SharePoint®.

### **Intuit Tested & Approved!**

Results CRM scores a "Spectacular" 9.75 out of 10 in an independent Intuit review.

"For QuickBooks users, the integration component is extremely robust; more so than many products I have looked at or worked with..."

-Steve Greene, Intuit-certified  
Third-party Application Analyst &  
QuickBooks Certified ProAdvisor

## Join the Results Partner Program

Become a Results partner and provide your clients with advanced CRM and business management software that seamlessly integrates with applications they use every day—including QuickBooks, Outlook, Constant Contact, SmartVault, and SharePoint.
